the stories are true, it will be the first case on record where authentic information was furnished the public regarding the inside operations of the big men Experience suggests the wisdom of discrediting the rumers.

Coal Issues Strong.

During a period of duliness, Great Northern Ore certificates were advanced from 364 to 372. Trading in the shares is very limited and the advance was soon forgotten. Pittsburg Coal issues were strong, the preferred rising two points and the common one. Owning the greatest combination of bituminous coal fields in the United States, the shares of this company have speculative possibilities.

Foreign exchange had a sharp break indicating gold imports, it is believed that a movement in this direction can-not be deferred. New Haven dropped two points and this attracted attention to a decline in the New York West Chester & Roston 43 per cent bonds guaranteed principal and interest by the New Haven. They changed hands yesterday at \$3.

Bonds Under Pressure.

Government bonds were under pressure. The 2 per cents were 97 hid, with outof-town institutions offering. The inquiry for bonds shows a broadening tentiency; in fact, all the market's investment issues have a firmer tone. Money
rates were unchanged for call loans, but
time funds are still scarce at firmer rates.

The promised extra distribution on
Union Pucific has electrified the investtime funds are still scarce at firmer rates. The promised extra distribution of Union Pacific has electrified the investment atmosphere. Rumors now include Reading and Canadian Pacific. In the meantime speculative interest is increasing, the market occasionally gets dull but not weak; railies are sharp, as they should be, and the general tone is decidedly optimistic.

WHEAT IS ADVANCED ON CHICAGO MARKET

From Corn Also Finishes Strong 17 to \$17; Lead Firm Oats Also Firm; Lard at \$4.70 Bid. Is in Demand.

CHICAGO, Sept. 1.—Big export sales of Manitoba wheat at the seaboard put backbone today into the market here. Closing prices were firm at 157tc to 2c higher. Corn finished 157tc to 2c up and outs with a gain of 156c. Provisions closed irregular, varying from 2tc lower to 5c advance.

Shippers here reported it harder to buy than to sell wheat, and declared that they

Shippers here reported it harder to buy than to sell wheat, and declared that they were unable to get any today, although offering to to ke advance for hard winter. Primary receipts were less than a year ago, and there was expected to be a further slowing up of the movement. Rains interfered northwest. In addition, Pacific coast ports were said to be outbidding Minnespolis for the Montana crop.

Whoat strength did not develop much until nearly midday, Previous to that time the market was somewhat depressed. A liberal increase of the European visible supply counting against prices. The bears also had a temporary advantage owing to free Russian offerings and because of weakness at Winnipes.

In corn, as in wheat, there was a bullish flurry after midday. The lowa state report indicated that the yelld would be lighter than expected, the heat during the first seven days of this month having permanently stopped the filling process limit usually takes place in September. OUTLOOK IN MONTANA CHAMBERLAIN SLAIN FAR FROM BEING ROSY

Union association situation:

The basebail scason of the Union association closed with yesterday's games. Great Pails winning the championship. The quality of sport furnished during the season was excellent and the championship was not decided until the last week of the season, but despite these facts, the season, from a financial point of view, was not a success. In Missoula, which won the championship a year ago, the hat had to be passed to keep the team going and the same was the case in Butte. Helena and Great Falls transferred games to Salt Lake toward the slose of the season. Salt Lake was the only city on the circuit where the attendance was good and which gave adequate support to the ball players representing the city.

The future of the association is

the ball players representing the city.

The future of the association is problematical. If the game were popular in Butte the association could probably be made to go; or if the game were a success elsewhere probably it could be made to go in spite of the lukewarmness in Butte. But in none of the Montana cities has the support been of a character to encourage those who have stood loyally behind the game to risk further losses in seeking to maintain the league. In Butte the game seemed to be getting along fairly well until the races started and then it wall all off. The same trouble seems to have been experienced in Great Falls. That city was in a fight for the championehip with Sait Lake right up to the close of the season. Yet the games scheduled for Great Falls for the next to the last week of the season were transferred to Sait Lake. The games of the last week, the crucial games of the championship race, were played at Great Falls after breakfast in the morning, so as not to interfere with the races.

The greatest triumph of the Union

The greatest triumph of the Union The greatest triumph of the Union association is in the fact that it finished its season under such disheartening conditions and with such glaring lack of support and appreciation on the part of the public. If those who have sacrificed much to keep baseball on its feet in Montana should now abandon the attempt, that would not be surprising.

CHICAGO Sept. 16.—Rain prevented today the final game of the season between
the New York and Chleago clubs in this
city. The teams had fought four innings
on even terms, with two leading pitchers
of the National league. Demarce and
Humphries, pitted against each other. At
the start of the fifth inning a shower
came up and Umpire Klem after a few
minutes' observation declared the game

SURVEYORS BURIED UNDER LANDSLIDE

KETCHIKAN, Alaska, Sept. The launch Rough Rider, which was sent to Captain Munzon Saturday to give assistance to the Canadian boundary surveyors, whose camp was over-whelmed by a landslide, returned yes-terday, having been unable to find the bodies of C. D. Roberts and Harry Bode, who are believed to have been killed by the slide.

The relief party was unable to find any trace of the camp. The slide came from 1000 feet up the mountainside and in the widest part was 500 feet wide and from twenty to thirty
feet deep. It is believed the bodies
of the missing surveyors are buried
under the mass of rock, trees and
gravel. A large force will have to be
sent to the camp if the Cauadian government intends to dig for the bodies.

STATE SEEKS SITES FOR FAIR BUILDINGS

SAN FRANCISCO, Sept. 18.—Oklahoma and North Dakota jointly took title teday to the sites on which they will erect pavilions at the Panama-Pacific international exposition in 1915. North Dakota plans to reproduce its state capitol.

The Oklahoma pavilion will be built of 190,000 bricks, sold at \$5 apiece and each stamped with the name of the purchaser. When the exposition has been closed the bricks will be returned to Oklahoma for the construction of a schoolhouse intended to stand as an example of the civic pride of the state.

Officer Coming for Shaw.

A telegram was received at police head-quarters last night from St. Louis, stat-ing that an officer had started for Salt Lake to get E. J.
